

Urban Economics and Simulations

P. v. Mouche

Assignment A

For this assignment, i.e. Assignment A, choose one of the following two exercises. Exercise 1 relates to Chapter 1 (Why Cities Exist) of the Text Book. Exercise 2 to Chapter 2 (Analyzing Urban Spatial Structure) of the Text Book.

Exercise 1 *Make Exercise 1.1(a, b, c, d) from the Text Book. Concerning Exercise 1.1(a). Please present the costs as follows in a table:*

	<i>Market</i>	<i>River+</i>	<i>River-</i>	<i>Mine</i>
<i>Input cost</i>				
<i>Output cost</i>				
<i>Total cost</i>				

Here River+ denotes the market side of the river and River- the mine side of the river. Be sure that it is clear how You did obtain these costs.

Remark: also see footnote 5 on page 15 of the Text Book.

Exercise 2 *Make part g of Exercise 5 in the Exercises A set.*

Please handle in, by email or in my Post Box, before May 27.
